### **DETAILED ACTION**

The Office Action is in response to the Preliminary Amendment filed September 30, 2003. Claims 1-22 are pending.

#### ***Election/Restrictions***

This application contains claims directed to the following patentably distinct species a plurality of active agents, thickeners, nucleation inhibitors, amino polycarboxylic acid compounds, and surfactants. The species are independent or distinct because there are various active agents, thickeners, nucleation inhibitors, amino polycarboxylic acid compounds, and surfactants, the search for all of which presents an undue burden on the Office. Hence, Applicant is required to elect a single species of an active agent, a thickener such as a specific structuring agent and a specific swelling agent, a nucleation inhibitor, a specific amino polycarboxylic acid compound of Formula I or II, and a surfactant.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-22 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 1617

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

### ***Election***

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

A telephone call to the attorney is not required where: 1) the restriction requirement is complex, 2) the application is being prosecuted pro se, or 3) the examiner knows from past experience that a telephone election will not be made (MPEP 812.01). Since the restriction election is considered complex, a call to the attorney for a telephone election was not made.
